### **DETAILED ACTION**

Claims 1-2 are presented for examination on the merits.

#### ***Priority***

Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

#### ***Information Disclosure Statements***

The information disclosure statements (IDSs) filed February 1, 2006 and August 8, 2006, fail to comply with 37 CFR 1.98(a)(2), which requires a legible copy of each cited foreign patent document; each non-patent literature publication or that portion which caused it to be listed; and all other information or that portion which caused it to be listed. The IDSs have been placed in the application file, but the information referred to therein has not been considered. It should be noted that the PCT was not available to the Examiner, thus, Applicants should provide copies of these references in English for consideration by the Examiner. A phone call was made to the Attorney's office but no contact was able to be made.

#### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-2 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims are rendered vague and indefinite for the recitation of "digestion product thereof" because it is unclear what such product is per se. To simply recite a digestion product without identifying the product is insufficient to adequately described the claimed invention. The metes and bounds of the claims can not be determined.

***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-2 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Kato et al.

Claims are drawn to an osteogenesis promoter comprising lactoperoxidase. Also a drink comprising the same is claimed.

Kato et al teach an osteogenesis promoter which comprises lactoperoxidase, see column 4, lines 63-67 and Table 2 of column 5, and also lines 55-65 of column 5 and column 6, lines 1-11. Furthermore, a drink for promoting osteogenesis is disclosed, note column 7, lines 65-67.

The claims are identical to the cited disclosure and are, therefore, considered to be clearly anticipated by the teachings of Kato et al.

All claims fail to be patentably distinguishable over the state of the art discussed above and cited on the enclosed PTO-892 and/or PTO-1449. Therefore, the claims are properly rejected.

No claims are allowed.
